EDUCATION

Flatiron Full Stack Software Engineering Certificate
Rigorous full-time coding program with 525 clocked hours
Awards: NCWIT Digital Skills Initiative Grant Recipient

Wayne State University - College of Liberal Arts and Sciences, Detroit, MI
Completed 135 Credits towards a B.A. in Business Administration and Political Science
Awards: Warrior Merit Scholarship and Honors Merit Scholarship

CODING PROJECTS

Habitual || Full-Stack Developer || Ruby on Rails, JavaScript, React:
- Allowed users to log-in and persist their information while encrypting their passwords with bcrypt
- Utilized personable configuration options for users that changed and persisted the color gradient of user facing tasks
- Persisted the data of posted habits of users that are added, changed, and deleted using relational SQL

My National Park Tracker || Full-Stack Developer || JavaScript, React, Ruby:
- Designed multiple pages on Figma for the preparation of a national park tracking website
- Utilized National Park API for the logging of park data, location, and images
- Created a dynamic and interactive map grid through leaflet open source map library interacting with the API's GeoJSON

Book Nook || Front-End Developer || JavaScript, React:
- Developed a book tracking website that allows user to catalog and add notes
- Structured vertical and dynamic grids to reflect bookshelf structure on the front-end
- Persisted the data of book cataloging information set by the user including comments, likes, and indexing using relational SQL

Art Rental || Front-End Developer || JavaScript, HTML, CSS:
- Designed an online business website that allows users to communicate and rent from local artists
- Interacted with The Metropolitan Museum of Art Collection API on the frontend to receive randomly generated art images

TECHNICAL SKILLS & LANGUAGES
- **Languages:** JavaScript, Ruby, HTML5, CSS3
